With the 2025-2026 season quickly approaching, KMA Association is gearing up to get our teams ready for the Fall. There have been many changes to our team since it began in 2020; however, our commitment to each player has not changed.

We are reaching out in support of our recreational athletes, elite athletes, and our karate parents.

Sponsorship is a big part of what keeps karate athletes competing. Our sport helps to boost their spirit and makes the team aware of the generosity of others within the community.

These donations help keep registration costs low, so it gives everyone the opportunity to compete. Also, with rising costs of equipment, uniforms, and other expenses it enables us to continuously provide quality programs for everyone.

Your sponsorship will include advertising for your company at our club's Cambridge location, promoting your company to all of the parents who pass through. We will also include the name and logo on Kazoku Martial Arts Centre and KMA Association's website, a team photo on a wall plaque for your company to display and social media promotion.

In addition to the above KMA Association wants to give back to all our sponsors by supporting them as much as we can. Whether it being buying their products, using their services, or even just sharing information, we want to work together to support our community. We appreciate your support!

KMA Association's President,
James Wyatt
